

Follow these easy steps to create an easy and inexpensive piece of modern art that is one-of-a-kind!

*Carefully read and understand all instructions before beginning.*

**Recommended Supplies:**

- Art Bites 2x2" Canvas Boards - item #88326
- SoHo Modeling Paste - item #87527
- SoHo Gloss Gel - item #87523
- SoHo Urban Artist Acrylic Mixing Set of 5 - item #87887
- Viewpoint 20x24" Black Foam Backing - item #79621

- Clearmount ZigZag Picture Hangers - item #49560
- Beste Finest Golden Taklon Super Shader Brush Size 8 - item #72400
- Beste Finest Golden Taklon Super Shader Brush Size 16 - item #72403

Find these items at [www.jerrysartarama.com](http://www.jerrysartarama.com)

**STEP 1:** Gather your supplies. Determine the basic design you would like to use on each Art Bite. Virtually any repetitive shape will create the desired effect.

**STEP 2:** Using the larger brush, heavily apply the Modeling Paste, painting the desired pattern on the Art Bite. Several coats can be built up to achieve your desired sculptural effect. Vary the thickness of application to create texture. Allow to dry overnight. Be sure that Art Bites do not feel cold or damp to the touch before next step.

**STEP 3:** Select a color palette and begin painting the Art Bites. Vary them slightly, to create interest in the final artwork. Be sure to paint the edges of each Art Bite for a clean, finished look.

**STEP 4:** Once your Art Bites are completely dry, seal them with at least two coats of SoHo Gloss Gel, being sure to carefully seal the edges. Let dry completely between coats.

**STEP 5:** Carefully trim the Foam Core Backing to measure 20x20" and experiment with placement for each Art Bite Canvas Board.

**STEP 6:** Once you have finalized your layout, apply a thick coat of Gloss Gel to the back of each Art Bite with the large brush, stopping just short of the edges. Carefully place the Art Bite back into position on the Foam Core Backing, pressing gently. Repeat with the remaining Art Bites. Allow to dry thoroughly.

**STEP 7:** Following the directions included with the Clearmount ZigZag Picture Hangers, carefully mount one hanger to the back of the Foam Core Backing Board. Choose a wall and hang your new artwork!
