

Artist Ginger Thomas & Her Signature LUKAS Cryl Studio Acrylic Sets

About Ginger Thomas

Ginger Thomas' passion for art began at a young age, but it was not until 2014 that she began her career as a self-taught artist. She grew up in Summit, Mississippi and spent most of her adult life in Birmingham, AL. In 2011, she returned to Mississippi and began painting in 2014. She quickly realized there was an obvious freedom and personal expression with abstraction and she was deeply interested in the effects of color, texture and the emotional response to strong composition and design. By creating something that told a story without an observational subject matter was very exciting to her. Ginger's work is a bold mix of styles, ranging from modern to rustic. Her goal is to have the elements of design, color and texture unleash a sense of emotion for the viewer.

Her goal is to have the elements of design, color and texture unleash a sense of emotion for the viewer.

Art to calm your mind and soothe the soul!

As an artist, I find the act of painting to be euphoric. I have a passion for color, texture, movement and design that are conveyed in my paintings. My inspiration is pulled from my surroundings, experiences and my imagination. I began by creating abstract shapes on the canvas with a texture medium, from there the painting evolves into compositions in which color and texture are the primary subject. The image is not the focus, but rather a part of the process. My goal is to have the elements of design, color and texture to unleash a sense of emotion for the viewer. My art is about the process of discovery, my personal feelings, colors that inspire me and the techniques that I use – it is a piece of who I am.

CRYL Studio Acrylics

High Quality, Medium-Viscosity Acrylics, Water-Mixable, Fast Drying!

Perfect consistency and excellent color saturation, the medium viscosity of the acrylic resin binder is excellent for painting techniques from wet-on-wet washes through to light structure without the use of a medium. The paint dries to an elastic, non-shrinking or cracking film and can be used on surfaces from paper and canvas to board and plastics. Water-mixable and fast-drying, Studio Acrylics can be cleaned up easily with soap and water before they dry.

Perfect for both the beginning acrylic artist as well as the large-scale professional looking for quality paint at a low price!
Paint film wont shrink, crack or wrinkle when drying!

by Professional Artist Ginger Thomas

Loving these colors from LUKAS CRYL Studio - I used these on my latest commissioned diptych and they turned out amazing!

“You Can’t Beat The Beautiful Color Choices!”

“One of the many things I love most about the LUKAS CRYL Studio Acrylics is the pigmentation offering beautiful, vibrant color and excellent coverage. These paints are very creamy and work so well when blending colors on the canvas. I normally paint with my hands and find these work best for me when blending my colors together. You can’t beat the beautiful color choices they have available which keep me from having to mix my own - I absolutely love that!”

About Mimik Hog Professional Synthetic Hog Bristle Brushes: Mimik Professional Synthetic Hog Brushes are the one and only brush you need for acrylic painting. They may be used for the heaviest acrylic paint and the thinnest watercolor or ink thin colors!

- Professional Brushes
- Multi-filament hair design soaks up color--bristles load and release both thin and thick paint in controlled strokes
- Seamless, reinforced dual-crimp nickel-plated brass ferrules have been electroplated in stain-resistant black finish
- Beautifully balanced, long lacquered wood handles
- Easier to clean than natural hair bristles
- Holds alot of color
- Great brushes for watercolor and thin media

Paramount 11/16" Professional Cotton Stretched Canvas: Paramount canvas is 12oz. triple primed weight and can take heavy textural buildups with less sagging than other canvases. Get a Professional canvas at Jerry's affordable prices. Better canvas for better results

- Professional Cotton Canvas
- 12oz. primed weight / 7oz. unprimed
- 11/16" Deep
- Unbleached, 100% cotton canvas
- Triple-primed with acid-free titanium white acrylic primer
- Medium tooth surface
- Back-stapled to allow for keying or re-stretching (keys included)
- 4 paintable edges
- Frameless presentation
