

Canvas Print Rack

Assembly Instructions

Parts

Step 1

Insert both Parts B into the long bar of Part A. Insert Part C into the short bar of Part A. Secure all 3 bars with 3 of Part D.

Step 2

Insert both Parts E into each end of Part F (canvas). Secure each end of Parts E to the Part A from Step 1.

Note: Shiny side of canvas is outside. longer side of canvas goes behind nad on top while the shorter side is in front and below.

Step 3

Slide Parts B and C through the slots at the bottom of the canvas. The Part B that sits above the other 2 bars stays on the outside of the canvas as a support bar.

Step 4

Insert all ends of Parts B, C and E into the 2nd Part A and secure the print rack with the final 3 bolts (Part D)
