DIMENSIONAL PAINT FOR CREATING OUTLINES OR EMBELLISHMENTS, WRITING AND ADDING DESIGNS TO CREATE SPECTACULAR AND UNIQUE RELIEF EFFECTS ON ART PIECES.

PROPERTIES

- Ready-to-use dimensional paint
- Opaque, transparent, glitter and metallic outliner colors
- Tube with outliner nozzle included
- Compatible with all other products included in the Pébéo Mixed Media program

APPLICATION

- The Pébéo Cerne Relief may be used to create outlines to contain and delineate Vitrail, Ceramic and Fantasy liquid colors.
- Can be used as a decorative element on any dry painted surfaces.
- Ideal for Mixed Media applications when combined with the Studio Acrylics, Gedeo Resins and Mirror Effect Metal Leaf lines.

SURFACES

Can be applied on most surfaces including Pébéo Liquid Art Panels, glass, canvas, metal, mirror, Plexiglas, acetate, plastic, ceramic and more!

HELPFUL HINTS

- Before use, the seal at the opening of the tube must be broken. Remove the cap and nozzle from the tube and use the black cap to pierce a hole through the seal, then replace the nozzle onto the tube.
- The cap must be secured back onto the tube after each use to avoid the paint drying in the nozzle.
- Replacement nozzles are available.
